❖ **Support to Orphan & Semi Orphan Children in East Godavari**

At a Critical and crisis like COVID conditions of the children became very precarious. Especially in our district where 683 children have lost a parent or both the parents. After conducted a survey in East Godavari district, the organization felt it was their responsibility to provide them with nutritional food and supporting the education. ASDS organizing this programme with the help of Hon'ble Collector & District Magistrate, East Godavari district. The ASDS organization distributed these items with the support of Children of India Foundation.

Child Rights – Nutrition & Protection and Girl Child Education

Children's rights are important because: They recognize the right to meaningful participation of youth on policies and programmes that concern them. Nutrition means getting the food and nourishment that you need for health and growth. Without nutrition, we grow weak, sick and at the very worst can even die. We miss developmental milestones and can't put our bodies through the daily mental and physical tasks that we need them to. Education brings self-discipline, a sense of responsibility, team-work among children and prevents them from feeling social insecurity. It helps in being self-confident and a good decision-maker. Hence, every child must be educated so that they can lead a happy life.

- Nutrition and Immunisation support to children
- Promoted Children Clubs in 128 schools, trained on 'Child Rights & Protection'
- Mainstream education support to 3044 children through Residential Bridge Courses (RBCs)

❖ **Watershed Development and Environment Protection**

Watershed management helps to control pollution of the water and other natural resources in the watershed by identifying the different kinds of pollution present in the watershed and how those pollutants are transported, and recommending ways to reduce or eliminate those pollution sources.

Why identify and protect healthy watersheds? In many ways, healthy watersheds substantially affect the quality of life for people and the environment overall – often by performing 'free work' that communities do not have to do, or pay for, themselves. The

beneficial roles of watersheds in healthy condition can be surprisingly far-reaching and include ecosystem services, economic benefits and physical and mental health benefits.

❖ **Women Development**

Women in a tribal society play a vital role in their social, cultural, economic and religious ways of life and are considered as an economic asset in their society. But they are still lagging far behind in the different walks of life like education, employment, good health and economic empowerment etc. Ensuring the inclusion of tribal women in all planning and micro planning processes and assigning important roles to them along with posts to carry out the responsibilities is important. Creating an enabling environment for women so that they can be empowered is as important as imparting livelihoods skills

Promoted a Koya Women's Society (Natwan Sangham) with 4300 women. Promoted 150 SHGs and leveraged bank linkage amount of ₹ 2.5 crore. Sorted out 28 Tribal Women abandon cases through the court, ensure 'maintenance' support

❖ **Rights and Entitlements**

The Scheduled Tribes (Recognition of Forest Rights) Bill, 2005 seeks to re-cognise forest rights of forest dwelling Scheduled Tribes (FDSTs) who have been occupying the land before October 25, 1980. It seeks to right the historical wrong done to tribals and other forest dwellers who were never given titles to their holdings within.

- Under Forest Rights Act, Rights of 2695 family's were recognised, right over 14842 acres.
- Leveraged 1507 ration cards for deserved tribal families to ensure food security.
- Leveraged old age (730) widow (597) single women (135) pensions.

Secured job cards to 3328 tribal families and ensured wage employment to the same by making effective coordination with the concerned government department

❖ **Sustainable Agriculture and Natural Farming**

As a part of increase farmers income ASDS promoting sustainable agriculture to reduce farmers investment on fertilisers, ASDS conducting village level trainings on Non Pesticide Management system to farmers in Chintur, Kunavaram, V.R.Puram and Yatapaka mandals of East Godavari District.

Zero Budget Natural Farming (ZBNF) technology uses locally available resources to manage soil nutrition, fertility, pests, and weeds. The technology completely avoids the use of inorganic fertilisers, pesticides, and herbicides. It emphasises the effective utilisation of water through specified methods and recommends less tilling, to produce higher yields. This farming practice asserts that ZBNF is resilient to climate change, reduces the cost of cultivation, and increases farmers' income.

- ZBNF reduces methane emissions significantly through multiple aeration. It also has the potential to avoid residue burning by practising mulching.
- The cost of cultivation is lower in ZBNF for all crops by INR 3,000–INR 22,000 per acre, exceptin cotton (higher by INR 9,000, due to great erlabour engagement). The difference in yield between ZBNF and non-ZBNF for chilli and paddy is negligible. For the remaining crops, non-ZBNF exhibitshig her yields, with an increase in the range of 0.3 Mt/acre–0.7 Mt/acre. The net revenue is higher in ZBNF by INR 9,000–INR 37,000 for all the crops (exceptcotton), because of the lower cost of cultivation. Furthermore, non-ZBNF-based chilli, maize, and groundnut show higher dispersion (more risk) than ZBNF crops.
- ASDS starts work with Agriculture Department and RySS from 2016.
- ASDS working in 2 clusters i.e. 1. Valumurugondi cluster of Chintur Mandal and 2. Chokkanapally cluster of V.R.Puram Mandal.
- In August – 2018 ASDS signed MoU with RySS for implementing ZBNF project in Valumurugondi and Chokkanapally clusters.
- Appointed 2 CRPs, 2 CAs 3 ICRPs for Valumurugondi Cluster, 2 CRPs, 2 CAs and 1 ICRP for Chokkanapally Cluster, one Project Co-Ordinator for overall Monitoring.

❖ **Sabhari Vikalanula Sangham**

- A special as socialization for the disabled has been formed here and is working to solve the problems and issues of the disable persons. In this connection they are lobbying with the government for certificates, pensions bus and railway passes. Mandal level Bus pass Camps conducted in V.R.Puram, Kunavaram, Chinturu and Yetapaka. Every year on the day of Persons with Disabilities, rallies are held to create awareness.

❖ COVID 19 Vaccination Project -2

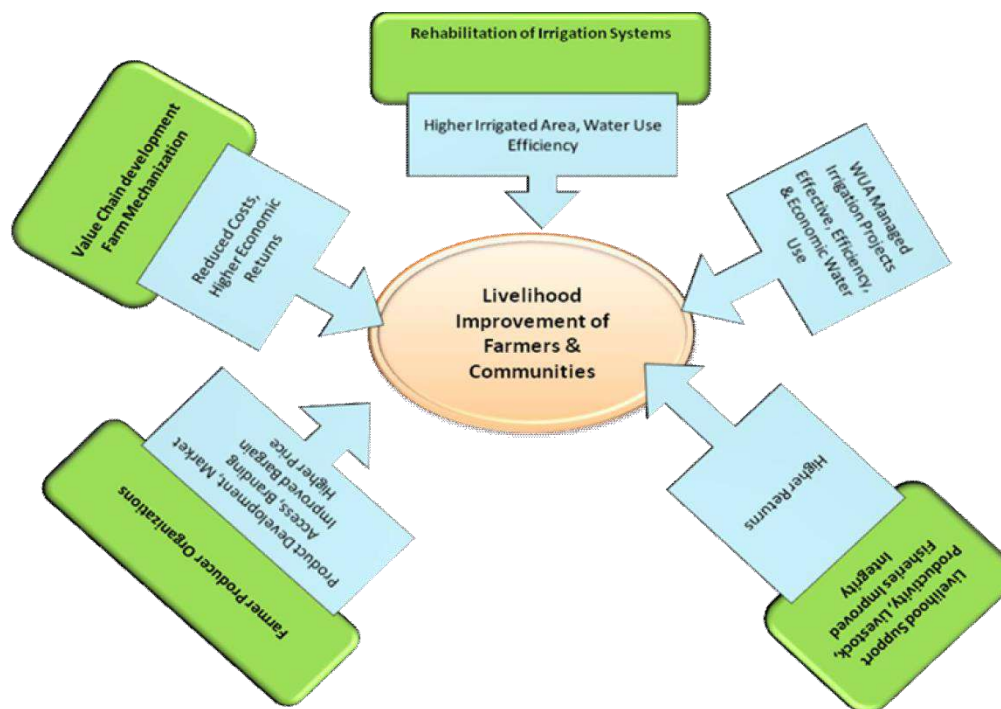

1. Intensive Vaccination Projects supported by Azim Premji Philanthropic Initiatives.

2. 100% Vaccination in Tribal Area supported by Goonj

- Intensive vaccination project was started on 11.10.2021 by ASDS in 3 PHC's of Kunavram and V.R.Puram Mandal's of East Godavari district with the support of Azim Premji Foundation.
- The PHC's that are covered under this project are 1.Rekhapally -72 villages, 2.Gowridevipeta-65 villages, 3.Kuturu-51 villages.
-
- 3 PHC's covered in 100% Vaccination in tribal area with supported by Goonj

Explained about Prohibition of Child marriage act (PCMA) 2006. A marriage is a cause for great celebration in India. Unfortunately, so is a Child marriage is a violation of human rights and can result in bonded labour, enslavement, commercial sexual exploitation and violence against its victims. Since they cannot abstain from sex or insist on condom use, child brides are often exposed to such serious health risks as premature pregnancy and sexually transmitted infections like HIV and AIDS.

Child marriage as a concept can be defined as the formal or an informal union between two individuals before attaining the age of eighteen years. This institution should be seen as an abuse of human rights since this is one form of a forced marriage. As per the law in India, a Child marriage is one in which the girl is below the age of eighteen years and the boy is below the age of twenty one year

✓ Child Rights:

According to the United Nations and United Nations Convention on the Rights of the Child (UNCRC) to the child rights are minimum entitlements and freedoms that should be afforded to all persons below the age of 18 regardless of race, color, gender, language, religion, opinions, origins, wealth, birth, status, or ability and therefore, apply to all people everywhere. The UN finds these rights interdependent and indivisible, meaning that a right cannot be fulfilled at the expense of another right.

The purpose of the UNCRC is to outline the basic human rights that should be afforded to children. There are four broad classifications of these rights. These four categories cover all civil, political, Social, economic, and cultural rights of every child. 1. Right to Survival 2. Right to Protection 3. Right to Participation 4. Right to development.

✓ **Prohibition of Child Marriage Act 2006**

Child marriage has been an issue in India for a long time. Because of its root in traditional, cultural and religious practices it has been a hard battle to fight. Child marriage is also associated with other problems like dowry and child widowhood. It is also associated with malnutrition, poor health of mothers and high fertility and hence over-population. The following is an overview of the act. According to the act a child is a male who has not completed twenty one year so far age and a female who has not completed eighteen years of age. Child marriage is a contract between any two people of which either one or both parties is a child. Child marriage that took place before or after this act can be made void by the person who was a child at the time of marriage. But the marriage must be voided before the person who was a child completes their second year of maturity.

Child marriage is a violation of children's human rights. Despite being prohibited by international law, it continues to rob millions of girls under 18 around the world of their childhood. Early marriage denies girls their right to make vital decisions about their sexual health and well-being. It forces them out of education and into a life of poor prospects, with increased risk of violence, abuse, ill health or early death.

Early pregnancy is one of the most dangerous causes and consequences of child marriage. Girls marriage dearly are more likely to experience violence, abuse and forced sexual relations. They are more vulnerable to sexually transmitted infections (including HIV).

Going to school gives girls choices and opportunities in life, allowing them to play an active role in their communities and break the cycle of poverty. Girls who are married are unlikely to be in school. Education is essential for girls to be able to make informed decisions about their sexual health and well-being.

Child marriage and teenage pregnancy often mean that girls no longer attend school. In addition, the girls suffer mentally and physically in the marriage. Many girls suffer from depression and post-traumatic stress. Pregnancy for girls in East African countries is a major cause of death because their bodies are still growing and are not yet ready to have a baby. Additionally they also run a high risk of being infected with HIV. Because in many countries it is still a big taboo to talk about these subjects, girls often do not seek help.

Police Outreach Programs:

Discussed about CHILDLINE activities. In 1996, CHILD LINE India Foundation (CIF) launched CHILDLINE, the country's first toll-free tele-helpline for street children in distress. As of March 2015, total of 36 million calls since inception have been serviced by CHILDLINE service and operates in 366 cities/districts in 34 States/UT through its network of over 700 partner organizations across India.

CHILDLINE 1098 is an additional 24-hour free emergency out-reach service for children in need of care and protection and aims to link children to long term – services, Children in need of care and protection – up to the age of 18 years.

CHILDLINE stands for a friendly `didi` or a sympathetic `bhaiya` who is always there for vulnerable children 24hours of the day, 365 days of the year.

A phone number that spell hope for millions of children across India, CHILDLINE is India's first 24- hour, free, emergency phone service for children in need of aid and assistance. Whether you are a concerned adult or a child, you can dial 1098, the toll-free number to access our services. We not only respond to the emergency need so children but also link them to services for their long-term care and rehabilitation. We have, till date, reached out to over three million children across the nation through such calls.

CHILDLINE is a platform bringing together the **Ministry of Women & Child Development, Government of India, Department of Telecommunications**, street and community youth, non-profit organizations, academic institutions, the corporate sector and concerned individuals.

We work for the protection of the rights of all children in general. But our special focus is on all children in need of care and protection, especially the more vulnerable sections. Child Marriages, Children affected by Physical/sexual/ emotional abuse in family schools or institutions, street children, Child laborers working in the Un organized and organized sectors, Children of commercial sex workers, Child trafficking, Abandoned child , Missing children, Run away children, Differently abled children, Children in conflict with law, Mentally challenged children, HIV/AIDs Infected children, Children affected by natural calamities, emergencies and man made disasters, Child beggars, Eve teasing, Children suffering from terminal/ incurable disease, Dropout child etc..

Explained about Prohibition of Child marriage act (PCMA) 2006. A marriage is a cause for great celebration in India. Unfortunately, so is a Child marriage is a violation of human rights and can result in bonded labour, enslavement, commercial sexual exploitation and violence against its victims. Since they cannot abstain from sex or insist on condom use, child brides are often exposed to such serious health risks as premature pregnancy and sexually transmitted infections like HIV and AIDS.

Child marriage as a concept can be defined as the formal or an informal union between two individuals before attaining the age of eighteen years. This institution should be seen as an abuse of human rights since this is one form of a forced marriage. As per the law in India, a Child marriage is one in which the girl is below the age of eighteen years and the boy is below the age of twenty one year.

1. Punishment for male adult: If an adult male who is above 18 years of age contracts child marriage, he shall be punishable with rigorous imprisonment for 2years or with fine which may extend to one lakh rupees or both.
2. Punishment for solemnizing marriage: If a person performs, conducts, directs or abets any child marriage, he shall be punishable with rigorous imprisonment for 2 years or with fine which may extend to one lakh rupees or both.
3. Punishment for promoting / permitting solemnization of marriage: Any person having charge of the child whether parent or guardian or any other person including member of organization or association of persons who does any act to promote the passing or permit child marriage or negligently fails to prevent it from being solemnized, including attending or participating such marriage, shall be punishable with rigorous imprisonment for 2years or with fine which may extend to one lakh rupees or both. Offence under this Act is cognizable and non billable.
